VIAL OF LIFE

WHAT IS IT?

This is a container to hold critical medical information--including medical history and emergency contact information--that will be easily accessible to emergency personnel when they arrive at your home. It is recommended that each person have a separate Vial of Life tube.

WHAT IS INSIDE?

- ❖ **MEDICAL INFORMATION FORM**: dated and signed
- ❖ Photocopy of your driver's license or recent photograph
- ❖ Other documents: DNR (Do Not Resuscitate), Living Will, etc.

INSTRUCTIONS

- ❖ Complete the **MEDICAL INFORMATION FORM** in ENGLISH
(Must be legible to be beneficial to medical personnel)
- ❖ Sign and Date the form and place in the tube.
- ❖ Also, place the following inside the tube:
 - Photocopy of your driver's license or recent photograph
 - Other documents of your choosing: DNR (Do Not Resuscitate), Living Will, EKG, etc.
- ❖ Cap off the tube. Make sure both caps are properly sealed.
- ❖ Place the tube in the refrigerator or freezer in a place that is easy for emergency responders to see.
- ❖ Place sticker on the door of your fridge or freezer.
- ❖ Update your **MEDICAL INFORMATION FORM** whenever your medical history or medications change.
